1	 <b>No Poverty</b> More than 700 million people, or 10 per cent of the world population, still live in extreme poverty today, struggling to fulfil the most basic needs like health, education, and access to water and sanitation.	1					
		2					
		3					
		4					
2	 <b>Zero Hunger</b> Nearly 690 million people or 8.9 percent of the world population are hungry. 135 million suffer from acute hunger largely due to man-made conflicts, climate change and economic downturns.	1

3	 <b>Good Health and Well-Being</b> Ensuring healthy lives and promoting well-being at all ages is essential to sustainable development. Before the pandemic, significant strides were made in increasing life expectancy and reducing some of the common killers associated with child and maternal mortality.	1	ALARA-BALT 2020 Conference - Discovering the Future Together: Action Learning and Action Research at Work	2020	Emeritus Prof Ron Passfield	Integrating action learning and mindfulness to develop productive and mentally healthy workplaces	<a href="https://www.alarassociation.org/?q=about-us/conferences-and-congresses/ala-balt-2020/program">https://www.alarassociation.org/?q=about-us/conferences-and-congresses/ala-balt-2020/program</a>

4	 <b>Quality Education</b> Education enables upward socioeconomic mobility and is a key to escaping poverty. About 260 million children were still out of school in 2018 — nearly one fifth of the global population in that age group.	1	Action Learning and Action Research Journal Volume 26 No 1	2020	Vlasta Svalina and Ninočka Truck-Biljan	Mobile learning in the English language teaching classroom: How to improve teaching English as a foreign language in a vocational school	<a href="https://alarj.alarassociation.org/index.php/alarj/article/view/281">https://alarj.alarassociation.org/index.php/alarj/article/view/281</a>

12		have destructive impacts on the planet. Sustainable consumption and production is about doing more and better with less. It is also about decoupling economic growth from environmental degradation, increasing resource efficiency and promoting sustainable lifestyles.					
13		<b>Climate Action</b> 2019 was the second warmest year on record and the end of the warmest decade (2010- 2019) ever recorded. The Paris Agreement, adopted in 2015, aims to strengthen the global response to the threat of climate change by keeping a global temperature rise this century well below 2 degrees Celsius above pre-industrial levels.	1 2 3 4				
14		<b>Life Below Water</b> The ocean drives global systems that make the Earth habitable for humankind. Our rainwater, drinking water, weather, climate, coastlines, much of our food, and even the oxygen in the air we breathe, are all ultimately provided and regulated by the sea. Marine biodiversity is critical to the health of people and our planet.	1 2 3 4				
15		<b>Life on Land</b> nature provides us with our oxygen, regulates our weather patterns, pollinates our crops, produces our food, feed and fibre. But it is under increasing stress. Human activity has altered almost 75 per cent of the earth's surface, squeezing wildlife and nature into an ever-smaller corner of the planet. Around 1 million animal and plant species are threatened with extinction.	1 2 3 4

17		<b>Partnerships</b> The SDGs can only be realized with strong global partnerships and cooperation. A successful development agenda requires inclusive partnerships — at the global, regional, national and local levels — built upon principles and values, and upon a shared vision and shared goals placing people and the planet at the centre. Yet, aid levels are falling and donor countries have not lived up to their pledge to ramp up development finance.	1 Action Learning and Action Research Journal Volume 1 - No 1	1996	Leonie Jennings	Converging Discourses?
